PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer with 6 years of comprehensive experience in front-end and back-end technologies, including MERN stack, PHP, and Vue.js. Passionate about building high-performance, user-centric web and mobile applications. Combines technical proficiency in modern JavaScript frameworks with a UX-driven approach to design, ensuring intuitive and accessible interfaces. Entrepreneurial mindset with a focus on delivering scalable, real-world solutions.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3, PHP
Frameworks & Libraries	React, Next.js 15, Node.js, Express, Vue.js, Tailwind CSS, i18next
Databases & Tools	MongoDB, Git, REST APIs, Figma, Firebase/Supabase, Render, Google Places API
UX/UI Design	Wireframing, Prototyping, User Research, Responsive Design, High-Fidelity Mockups

TECHNICAL PROJECTS & INDEPENDENT DEVELOPMENT

Hospedaje por Dias

- Developed a multi-language lodging platform using React to support international accessibility.
- Implemented i18next for localization and built a high-conversion "Book Now" call-to-action component.

Birdrock Surfshop

- Developed a dual e-commerce and surfboard rental platform using React, Vite, and Tailwind CSS, with Firebase for data storage.
- Implemented a comprehensive inventory management system to track store stock and

- real-time rental inventory (out, upcoming, and returns).
- Created a dedicated booking page for short-term property rentals, managed via an administrative portal.
- Designed the Admin side to handle inventory updates, manage rentals, and process guest messages for property bookings.

Gym Finder Application

- Built an administrative command center for managing facility directories and user lists, utilizing React and Next.js.
- Integrated Google Places API for location-based services and administrative updates.
- Implemented responsive data tables and managed API endpoints to ensure smooth data flow and persistence.

EDUCATION

UCSD - San Diego Workforce

Frontend Development Certificate | 2025 – 2026

- Intensive focus on frontend architecture and MERN stack integration.

Free Code Camp

JavaScript Algorithms and Data Structures | 2025

- Completed comprehensive curriculum covering algorithmic logic, data structures, and hands-on coding challenges.

San Diego Mesa College

Coursework in Web Development (AS Program) | 2019 – 2022

- Focused on web development fundamentals, modern JavaScript frameworks, React, and Node.js.

UCSD Extension - TrilogyED

Full Stack Development Bootcamp | 2019

- Covers intensive MERN stack development, modern frameworks, and deployment strategies.

CERTIFICATIONS

Google UX Design Certificate

- Comprehensive training in the UX process, including empathy, defining user needs, ideation, wireframing, and high-fidelity prototyping in Figma.
